

**YOUR  
EXPERT FOR  
OVER 40 YEARS**

### TRUST THE KNOW-HOW OF YOUR DESIGNER- MANUFACTURER

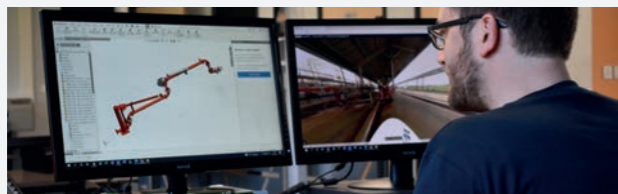

FULL PRE-ASSEMBLY OF  
YOUR INSTALLATIONS AND  
TESTING IN THE WORKSHOP

- For your new installation projects, integration projects and optimisation projects: our teams accompany you
- "Turnkey" services: benefit from personalised support from the analysis of your specifications to the commissioning of your installation on site
- Many spare parts are available in stock
- Every installation is pre-assembled in the workshop and load-tested prior to shipment, and a test certificate and manufacturer's plate is issued
- On-site assembly and installation provided by our experienced technicians

### DO YOU NEED A BESPOKE SOLUTION?

Let's come together to look at your project: **contact our Design Office!**

# YOUR SPECIALIST IN LOADING SOLUTIONS AND TANKER TOP FALL PROTECTION

OPTIMISING, SECURING AND MAINTAINING YOUR INSTALLATIONS - FLUIDS, GAS AND BULK PRODUCTS

## LOADING ARMS, UNLOADING ARMS AND TELESCOPIC DROP PIPES

OPTIMISE YOUR TANKER LOADING AND UNLOADING OPERATIONS,  
**ALL LIQUID OR GASEOUS FLUIDS**

- For your road and rail tankers, and for your barge applications
- For your top loading (at the top of the tanker) or bottom loading (with bottom connections) operations
- Loading arms available in fixed and variable-reach versions depending on your application
- Arms fitted with load-resistant rotary unions specially designed for loading and unloading fluids

### DEPENDING ON YOUR APPLICATION

CE marking, ATEX and DESP  
conformity, FDA compatibility  
(food applications), etc.

SAFE LOADING SYSTEM WITH A  
DOUBLE TELESCOPIC DROP PIPE

A WIDE  
CHOICE OF  
OPTIONS

LOADING ARM

## PORTEFLEX®: PACQUET'S HOSE SUPPORT SYSTEM

**EASILY** HANDLE YOUR HOSES

- Reduce Musculoskeletal Disorders (MSDs) among your operators
- Transfer fluids without any retention areas or bacterial risk
- Free up floor space and optimise your processes

PORTEFLEX®

## TANKER TOP ACCESS GANGWAYS, ACCESS SYSTEMS AND LOADING SYSTEMS

PROTECT YOUR OPERATORS AND DRIVERS  
FROM FALLS FROM A HEIGHT

- An enclosed and safe working area for all your operations: loading and unloading of fluids or bulk products, sampling, washing, opening and closing manholes
- Complete bespoke installations that enable operators and drivers to gain access to the tops of single-compartment and multi-compartment tankers in total safety
- Innovative installations with multiple configurations
